Scenario

Matt, who is 24 years old, recently moved to Colorado and has submitted an application for Health First Colorado.

Matt is living with a brain injury sustained at 14 years old which has limited his use of his left arm and leg. He currently lives with his older brother.

Matt utilizes a cane when walking and his brother supports him by providing transportation to medical appointments and stays with Matt during his appointments to make sure he follows through.

Matt's brother has a new job and can't drive him to his appointments or help him get ready in the morning any longer. Matt qualified for Medicaid in Alabama where he was living previously.

Would you refer Matt to the Case Management Agency?

Scenario

Joel is 38 and recently lost his job through which he had health insurance.

Joel has found a new job and is making \$10 an hour. The employer does not offer health insurance, so Joel decides to apply for Medicaid.

Joel has no children and lives in an apartment with roommates.

Joel does not have a car so he takes public transportation to and from work and to his county office to apply for Medicaid.

Is Joel a possible candidate for a waiver?

Scenario

Alexis is 10 years old and living with cerebral palsy. She uses a walker and her Mom assists her with transferring, bathing, and dressing.

Mom is divorced and does not live near family members or Alexis' father. She does not trust neighbors or friends to help when she needs it.

Mom takes care of Alexis 24 hours a day, and has difficulty getting to the grocery store on her own. Taking Alexis on shopping trips is difficult.

Alexis is having increased difficulty getting around with her walker as she gets older, and Mom is unsure of what options are available.

Is Alexis a possible candidate for a waiver?
